WORK EXPERIENCE

Software Developer | C2Perform Pvt. Ltd. Dehradun, Uttarakhand

June 2023 - May 2026

- Developed and maintained enterprise HRMS modules using Core PHP, MySQL, jQuery, AJAX, and Bootstrap.
- Built and maintained RESTful APIs for frontend and third-party integrations.
- Implemented JWT authentication and Role-Based Access Control (RBAC).
- Optimized complex MySQL queries, reducing response time by approximately 65%.
- Developed attendance, QA audit, coaching, learning, broadcast scheduling, and knowledge management modules.
- Built reusable backend components following MVC architecture.
- Implemented CSV/Excel import functionality with validation and error reporting for datasets exceeding 10,000 records.
- Collaborated with QA and business teams to deliver production-ready features in Agile sprints.

Junior Software Developer / PHP Intern | Infonix Service

Technology Dehradun, Uttarakhand

Nov 2021 - May 2023

- Developed and customized WordPress websites using PHP, WordPress, MySQL, HTML5, CSS3, JavaScript, and Bootstrap.

- Built dynamic website sections using Advanced Custom Fields (ACF), Custom Post Types (CPT), and reusable template structures.
- Customized WordPress themes and extended functionality based on client requirements.
- Developed responsive layouts using Elementor and Bootstrap.
- Improved website performance, responsiveness, and user experience across multiple projects.
- Implemented SEO-friendly development practices and integrated WordPress SEO tools.
- Worked closely with designers and senior developers to deliver business and e-commerce solutions.

PROJECTS

Freyza Salon Website

PHP • JavaScript • AJAX • REST APIs • Node.js API Integration

Live: <https://freyza.in/>

- Integrated Node.js backend APIs into a PHP frontend.
- Developed SEO-friendly dynamic routing using slugs.
- Implemented AJAX-powered service search.
- Built dynamic service pages, blog pages, and API-driven homepage.
- Implemented responsive frontend interfaces using HTML5, CSS3, JavaScript, Bootstrap, and AJAX.

Knowledge Hub SaaS Platform

Laravel 12 • MySQL • Blade • REST API • CKEditor

Live: [Github](#)

- Developed a multi-tenant SaaS Knowledge Management Platform using Laravel 12 and MySQL.
- Built a separate Admin Panel and a Blade-based frontend following Laravel's MVC architecture.
- Implemented authentication, middleware, route protection, and role-based access control.
- Designed scalable Category → Topic → Question architecture with Eloquent ORM relationships.
- Developed CRUD modules using Resource Controllers, Form Requests, and Blade templates.
- Designed REST APIs for future mobile and third-party integrations.
